Muino Community Water Supply Project is a project proposed to be located at Muino in Weiwei Ward. The project entails establishment of a spring intake and a 4.9km pipeline through which the water flows by gravity to an elevated 50m3 for community supply. The project aims to improve the livelihoods and strengthen drought resilience of households in Muino, Weiwei Ward, by providing sustainable access to clean and reliable water for domestic and livelihood use.

Results framework — targets & achievements

Output 1: **Output 1: Provision of safe water to 2,464 persons** (0% delivered)

Indicator	UoM	Baseline	Target	Achieved	Progress
Number of persons accessing safe water	persons	540	2,464	0	0%
No. of women accessing the community water point	—	0	1,500	0	0%

Indicator	Fiscal year	Quarter	Target	Achieved	%
No. of women accessing the community water point	Whole project	—	1,500	0	0%
Number of persons accessing safe water	Whole project	—	2,464	0	0%

Output 2: **Output 2:Construction of 100m2 protected spring intake** (0% delivered)

Indicator	UoM	Baseline	Target	Achieved	Progress
Number of water structures constructed and operational	water structures	—	0	0	0%

Output 3: **A 4.9KM Pipeline from the spring intake to the storage facility installed** (0% delivered)

Indicator	UoM	Baseline	Target	Achieved	Progress

No data available for the selected criteria.

Output 4: **A 50 m3 galvanized steel tank fabricated and installed on an elevated 12M high steel tower** (0% delivered)
